Water Sanitation and Hygiene Institute (WASH Institute) established during the year 2008 in Kodaikanal, is a registered non-profit government technical, training, research and development organization dedicated to providing practical solutions to tackle a wide range of water, sanitation and hygiene issues in India.

Over the years, WASH Institute has carved its niche in the field of Water, Sanitation and Hygiene as an expert through its quality training programs, Technical Assistance programs to the Government of India, grassroots programs, and research & advocacy. WASH Institute also has an academic wing that conducts formal courses at Reddiarchatram, Tamil Nadu in affiliation with the Madurai Kamaraj University. The Institute has a proven record of accomplishment in organizing National Workshops/conferences on various themes of Water, Sanitation and Hygiene. WASH Institute is currently operating from different branch offices that are located in Reddiarchatram, Chennai, Madurai, Thiruppullani and Viralimalai (Tamil Nadu), Munger (Bihar), West Bengal, Bhadradari Kothagudem (Telangana), Noida and Saharanpur (Uttar Pradesh), Malur (Karnataka), East Godavari district (Andhra Pradesh), Hindaun (Rajasthan), and New Delhi.

WASH Institute is looking to recruit motivated personnel to share the vision of WASH Institute – “a world where all the communities have access to safe, protected and sustainable drinking water and sanitation services, with improved hygiene practices”.

We are looking for experienced professionals to join our vibrant team under our Technical Advisory program. The position will be part of a team providing handholding support to governments in planning and implementation of water, wastewater, faecal sludge management, and solid waste management for urban areas.

**Key Responsibilities**

Responsible for successful completion of project deliverables and achieving objectives in a government setting. Rapid assessments of city/town to determine sanitation infrastructure gaps and develop concept solutions for engaging stakeholders and facilitating consensus on action plans. Develop operational models with regulations, service benchmarks and financials to sustain sanitation services.
Desired Skillset

Strong ability to manage development projects working with governments at local and state levels. Strong understanding of project cadence with ability to deploy resources effectively to collect data, analyse infrastructure gaps, and present possible solution scenarios to support decision makers. Understanding of WASH sector is highly desirable - familiarity with sewered and non-sewered sanitation and Faecal Sludge Management (FSM) is desirable.

Strong aptitude for digital working processes and familiarity with digital methods (survey tools, GIS) and/or packages (Sewer CAD etc.,) is highly desirable.

Strong communication skills, both oral and written, with the ability to engage stakeholders and evolve consensus is required.

Strong ability to manage clients and project teams of varying skill sets is required.

Languages

Sound knowledge of speaking, reading, and writing in English is essential. Fluency with Hindi and/or other languages will be highly desirable.

Salary Package

The annual Salary (CTC) will be commensurate with the available skills and fitment of the incumbent as per the selection process.

How to Apply
